SKILLS

- **Languages**: Python Java, C, C++
- **Libraries**: Sklearn, NumPy, Pandas, Matplotlib, Seaborn
- **Tools/Platforms**: MySQL, Power BI, Git

PROJECTS

AI-Based Sports Store Chatbot |Github **Feb 2025 – March 2025**

- Created a smart chatbot that quickly answers customer questions about sports products using TF-IDF and Gemini AI. Used both methods to make responses fast and helpful.
- Built the chatbot to understand user questions, find the best answer with TF-IDF, and use Gemini AI when the question is unclear or more complex. Added memory so it remembers the user's last topic and gives correct details about products, prices, offers, and store services.
- Helped sports stores provide instant customer support and product suggestions. Reduced the need for manual assistance by giving quick and accurate answers automatically.

Secure Authentication Module |Github **Mar 2025 – April 2025**

- Built a secure login system where users sign in using a password and a one-time OTP for extra safety. Ensured strong protection by verifying both steps before allowing access.
- Initiated a system that safely stores passwords, checks login attempts, sends OTP codes, and locks accounts after repeated wrong tries. Added an admin dashboard to manage users, view logs, control files, monitor the system, create backups, and send alerts or emails.
- Enabled use in small apps or computer systems that need safe login and admin controls. Provided simple system management tools that make the application easier and safer to operate.

TRAINING **June 2025 – July 2025**

Data Science Course |LPU| Certificate

- Analyzed California Housing data to identify key price-driving factors and built ML models for accurate value prediction.
- Performed data cleaning, feature engineering, visual analysis, model evaluation, and developed an interactive Power BI dashboard.
- Trained multiple models (LR, DT, RF) and selected Random Forest for best performance, presenting clear insights on income, age, density, and ocean proximity.

CERTIFICATES

- Finished COA and CN course | GOOGLE | Certificates. **Sep 2024**
- Social Network with Elite Performance | NPTEL| Certificate. **April 2025**
- Problem Solving Test | Hacker Rank | **Certificate**. **Jan 2026**

ACHIEVEMENTS

- **Solved 400+ coding problems** on LeetCode and GeeksforGeeks, **showing** consistent problem-solving practice Dec 2025
- **Earned 5-Star Rating in Java: on HackerRank for strong programming proficiency.** Aug 2025
- **Participated in web dev hackathon and English workshops**: contributing to continuous technical growth Mar 2024

EDUCATION

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.08*** *Since August 2023*
- **MS Public School** Midhakur, Agra
  Intermediate; ***Percentage: 74%*** *April 2021 - March 2022*
- **MS Public School** Midhakur, Agra
  Matriculation; ***Percentage: 47%*** *April 2019 - March 2020*
